

Notes for the Instructor:

Provide participants with Handout 26B. Divide participants into small groups and allow 5 minutes for Learning Activity: Discussion. After discussing the material all together ask participants to return to their small groups and discuss the vignettes. Completion of this project requires distribution of program materials/fliers.

### Learning Activities

#### *Small Group Activity*

- ❖ What would you tell others (clients, families, other people you know) about the importance of premarital/marital education?
- ❖ If you would not recommend premarital/marital education to others, why not?
- ❖ What limitations do you see in using these types of programs in your agency, organization, community, church, etc.?

#### *Vignettes*

- ❖ Ask participants to return to their small groups and discuss the vignettes.
  - ❖ Have them indicate which program they might recommend for each couple and why?
- Bring the program materials (e.g. PREP, PREPARE/ENRICH, etc) for participants to browse through and discuss with others in the group. Again, have participants indicate which program they might recommend for specific couple situations and why?
